

UNITED STATES OF AMERICA

NATIONAL
HIV/AIDS
STRATEGY

The **National HIV/AIDS Strategy** is a comprehensive plan focused on:

1. reducing the number of people who become infected with HIV,
2. increasing access to care and optimizing health outcomes for people living with HIV, and
3. reducing HIV-related health disparities.

The plan will serve as a roadmap for **policymakers, partners in prevention**, and the **public** on steps the United States must take to lower HIV incidence, get people living with HIV into care, and reduce HIV-related health disparities.

NATIONAL
HIV/AIDS
STRATEGY
VISION

The United States will become a place where new HIV infections are rare and when they do occur, every person, regardless of age, gender, race/ethnicity, sexual orientation, gender identity, or socio-economic circumstance, will have unfettered access to high quality, life-extending care, free from stigma and discrimination.
